(54) PORTABLE TELEPHONE SET AND EQUIPMENT FOR CALLING THE SAME

(57)Abstract:

PROBLEM TO BE SOLVED: To automatically prohibit speech or communication by a portable telephone in a speech or communication prohibited area.

SOLUTION: When communication prohibition information is received, an automatic answering mode is selected to make a telephone part into a sleeping state. When the communication prohibition information disappears, the telephone part is restored into an operating state to release a silent mode and the automatic answering mode. When the speech prohibition information is received, the silent mode and the automatic answering mode are selected automatically and the telephone part is kept to be in the operating state. When speech prohibition information disappears, the silent mode and the automatic answering mode are released.
